HAND DRYER

Enviro-LCS™ hand dryers provide the most economical and environmentally friendly method of drying hands, saving up to 90% of hand drying costs compared to alternate methods. Features include die-cast aluminum construction, chemical resistant nylon coating, unique base plate that covers power outlets allowing for easy service, a solid state infra-red 'no touch' control, high velocity airflow, thermal protection and over run timer, and is also Australian SEC and PWD approved. Installation is carried out by our fully trained service technician (a power outlet is required). As there is no unnecessary usage of natural resources and no waste Enviro-LCS™ hand dryers are the environmentally friendly alternative. Enviro-LCS™ hand dryers are clean, economical and simple, providing the warm air advantage.

OPTIONS: Hire, purchase.

OTHER RECOMMENDED PRODUCTS AND SERVICES: Soap dispensers.
