## NAPPY DISPOSAL UNIT

Enviro-LCS™ nappy waste disposal service has proved to be an efficient, hygienic solution to remove biological waste from community based centres such as kindergartens, schools, child care centres, day nurseries, medical centres and other similar organisations. The Enviro-LCS™ nappy disposal unit is a 55 litre waste bin with heavy duty plastic waterproof liner and a deodorising tablet inserted into the lid. At each service the liner is removed, replaced and a new deodorising tablet is inserted into the lid. Nappy disposal service combined with our baby care cradle completes our baby care system.

**OPTIONS:** Fully serviced.

### SERVICE FREQUENCIES AVAILABLE:

Weekly, fortnightly. All services include Touchprobe™ attendance verification and computer scheduling (see Touchprobe™ brochure).

### OTHER RECOMMENDED PRODUCTS AND SERVICES:

Baby care cradle.
