TOUCHPROBE™

Enviro-LCS™ has developed the ultimate in computer scheduling and attendance verification. Utilising in-house programming and Touchprobe™ barcode attendance verification hardware, we can offer complete flexibility over quantities, location and service frequency on our full range of serviced products.

For every site serviced, Enviro-LCS™ schedules and verifies each visit with full reporting of the location, date and time of each service performed. At any time you may request the following reports:

SURVEY: Detailing the location and service frequencies of all services and products including any variations of original agreement.

SERVICE SCHEDULE: Showing dates for services to be performed in the future.

SERVICE HISTORY: Detailing all services carried out including date, time, quantity and product.

Enviro-LCS™ ensures service on time, every time, with Touchprobe™.

FURTHER INFORMATION: For further information regarding any of our washroom products, contact Enviro-LCS™ on (02) 9310 1400, or visit our website at www.enviro-lcs.com.au.
